Providing a complete service of landscape creation, maintenance and treatment for both residential and commercial clients, Q Landscape are dedicated to performing to the highest standards to achieve effective and practical solutions.

LUXURY LANDSCAPES

ARCHITECTURE

At Q Landscape, we take into consideration all the components to create your dream garden. Experts in garden design, our professional architects focus on developing innovative and unique design solutions specific to your vision and lifestyle.

CONSTRUCTION

Our construction team is highly experienced in the delivery of landscaping and use the finest resources to guarantee outstanding results no matter the size, scale or complexity of the project.

MAINTENANCE

We are able to deal with all your garden's maintenance requirements including turf grass, planters, flowerbeds, pest control, green waste, fertility and swimming pools. We have also developed specialised irrigation systems to save water and reduce costs for property owners.

OUR SERVICES

Lawn Maintenance · Pruning & Trimming · Weed Prevention · Fertility
Pest Control · Irrigation · Green Waste · Pool Maintenance

UNIQUE SOLUTIONS

With a natural backdrop as magnificent as the Ria Formosa, golf courses and Atlantic Ocean, we know our gardens have to be special. That's why every garden we create is truly one of a kind; from sourcing trees from other parts of the world, to creating concept 'jungle' gardens or indoor vertical gardens, our creativity is what makes us stand out. From site preparation to plant procurement, design and installation, the Q Landscape team is there. We create a 3D image of the designs to give you the opportunity to truly visualise your new garden coming to life, and, once your garden is transformed and thriving, the maintenance team are on hand to keep it looking its best, all year round.
